In Memoriam

BILL NICKELS

To every thing there is a season, and a time to every purpose under the heaven:

A time to be born, and a time to die; a time to plant, and a time to pluck up that which is planted;

A time to kill, and a time to heal; a time to break down, and a time to build up;

A time to weep, and a time to laugh; a time to mourn, and a time to dance;

A time to cast away stones, and a time to gather stones together; a time to embrace and a time to refrain from embracing;

A time to get, and a time to lose; a time to keep, and a time to cast away;

A time to rend, and a time to sew; a time to keep silence, and a time to speak;

A time to love, and a time to hate; a time of war, and a time of peace.

Ecclesiastes 3:1-8

Foreword

One of the most important factors in determining the worth of a school is the spirit that is retained by the student body within that school. Not only the type of spirit shown in pep assemblies, but the spirit of good sportsmanship; of individualism; of team unity; and mutual co-operation between faculty and students. The students of Silver High School have all the qualifications required for an outstanding school; thus it is that the annual staff selected "The Spirit of SHS" as the theme for the 1964 EL POTRANCO. We, the staff, sincerely hope this theme will add just a little more to your living book of memories.

I would like to take this opportunity to thank Mrs. Snodgrass for being such a wonderful sponsor; Mr. Burgess for being an understanding photographer who was always willing to go above and beyond the call of duty to get a picture; and to all of you who helped make this publication possible. My sincerest thanks to you all!

Sandy Foster
Editor

Frank,
Here's wishing a really swell guy the best! Be seeing you teaching an advanced math course to the SHS teachers one of these days.

Classes

Gazing upon the building that will be their "home" for four years are the Freshman Class officers: Dougan Anderson, President; Jody Jackson, Secretary; Rita Hall, Treasurer; Sally Montoya, Student Council Representative; and Larry Montes, Vice-President.

Freshmen

Exploration, adjustment, and inquisitiveness form the framework of the Freshman Class. The hard-working hours of "S" day, the eager anticipation of homecoming week, the vast class election, all form the beginning of a new life, a life with the future in mind.

Tomorrow holds the promise of adventure and challenge that only the enthusiastic in spirit can conquer.

Sophomores

The middle year is a year of invention, achievement and eager anticipation. As Sophomores we are no longer the "low class," so we strive to earn recognition with the upperclassmen and teachers by presenting our original ideas in competition and activities. As individuals we strive to gain academic and sports stature. But above all we look forward to the coming years with high hopes and an undaunted spirit.

Taking that "pause that refreshes" are the energetic Junior Class officers: Mike Conner, President; Nicki Amberson, Treasurer; Rachel Ramos, Secretary; Terry York, Vice-President; and Tom Conner, Student Council Representative.

Juniors

One's Junior year is a year of invention, achievement, and success. It is measured in values, ideals, and accomplishments. Behind the Class of 1965 lie the memories of carefree days, while ahead lies the realization of success and responsibility.

Activities are recalled—prom decorations, merit tests, pep assemblies, games, and student body elections all accumulate to form that spirit of accomplishment.

The senior year of any class is the busiest, and, perhaps, the most important. Strong and capable leadership is needed to guide and direct the class's activities. The Class of 1964 had this leadership with our competent class officers: Le Roy Smith, Vice-President; Kenny Sweazy, President; Rusie Vega, Secretary; Molly Griswold, Student Council Representative; and Jane Cansler, Treasurer.

Seniors

Through twelve long years of study we, as seniors, have struggled to achieve our present goal. Yet we cannot rest upon our laurels as graduates of Silver High School. We must go forward to further our education and knowledge of the world in order to fulfill our destinies.

Honors

Foreign Exchange Student

We were honored this year with our second AFS Student to Silver High—
CHERYL HUTCHINSON from Barbados, West Indies.

Hi, everybody!

I would like to express my sincere thanks to the faculty and students of Silver High School, who have all made my year such a pleasant one. Undoubtedly, this year has been a wonderful experience for me and I will treasure its memory forever. I hope that you all have enjoyed having me here as much as I have enjoyed being here.

I am really looking forward to visiting my friends in Silver City at some time in the future. I also am hoping that I will see some of you in Barbados, therefore I won't say goodbye, only "hasta la vista."

Cheryl Hutchinson
(Hutch)

Steph tells her friends about Sweden.

Stephanie was Silver High School's first Americans Abroad Student, sponsored by the American Field Service. She spent the summer months in Telleborg, Sweden, where she familiarized herself with the people and customs of that area.

Steph Goes to Sweden

I am proud to have been chosen to represent Silver High in the Americans Abroad Program. My stay in Sweden was both profitable and pleasant. It was a challenging experience, one in which I tried to prove that "The earth is but one country and mankind its citizens." A.F.S. is an open door to understanding and friendship around the world. This type of program truly has an effect on advancing the peace of the earth and giving promise to each of us that humans can trust and believe in one another.

Girls' State

Melinda Murphy, Nicolynn Menefee, Barbara Ranger.

From June 16-23, 1963, we took part in a unique state called Girls' State. We studied our American Heritage, and learned what a great battle we are facing against Communism. We met many new friends and had an exciting week. Thank you for letting us represent Silver High at New Mexico Girls' State.

Boys' State

Robby Battishill, Jack Davis, Kenny Sweazy, Joe Burgess, Gary Waller (not pictured).

The 1963 session of Boys' State was held for one week during the past summer. At Boys' State we learned the functions of our government on a city, county, and state level through actual participation. We were also shown the dangers of Communism to the "Free World" by Dr. C. L. Kay. It was a privilege to represent Silver High at Boys' State and it was an experience that we shall never forget.

United States Senate Youth Program

I consider it a very distinct privilege to have had the opportunity of representing both Silver High School and the Land of Enchantment at the William Randolph Hearst Foundation United States Senate Youth Program held in Washington, D.C., during the final week of January. I have a great deal of faith in the American youth of today and I feel that educational programs such as this one will contribute to a safer and more certain tomorrow for our democratic way of life.

Regardless of the programs we have, however, our future will depend on the individual and his willingness to stand up and take an active part in government. Therefore, I think that now is the time to stop and ask ourselves, "What have I contributed toward my own future and the future of my fellowman?"

Sincerely,
Joe Burgess

It's the future that counts

The average student realizes that education is not an end in itself. It is the groundwork for the future — preparation that will help him achieve a rich and productive life in the years to come.

Kennecott's Chino Mines Division has somewhat the same attitude. Successful day-to-day operations in the production of copper are not in themselves a goal. Rather, they are a stepping stone to a goal — the continued production of copper for many years to come.

Each improvement in operations and equipment developed at Kennecott has the immediate effect of maintaining copper production as a sound, productive business in New Mexico. At the same time, by achieving greater efficiency, improvements are the best assurance that Kennecott's future will continue to be as bright as the metal it produces.

For Kennecott, as for the young men and women of New Mexico who are completing another step in their education, it's the future that counts.

AT YOUR SERVICE— TODAY AND TOMORROW

Young men and women in school don't give much thought to electric service. All that counts is that the study lamp or hi fi or radio or TV works. Someday, though, when you have a home —or perhaps a business—of your own you'll decide electricity is pretty important. Then, as now, we'll have plenty of power ready and waiting for you . . . for better living and better working.
